

Honestraj V

Senior UI/UX Designer | AI

+91 6381636770 | honestdesigns.vercel.app/ | honestdesigns0@gmail.com | Chennai, India

Summary

Customer-focused product designer with **4+ years** of experience designing intuitive web, SaaS, **enterprise**, and digital products. Skilled in user research, usability testing, wireframing, prototyping, interaction design, and building scalable design systems using Figma. Experienced in collaborating with product managers, engineers, QA, and stakeholders to deliver data-informed, user-centered experiences throughout the product lifecycle. Strong understanding of accessibility, responsive design, design thinking, Agile methodologies, and developer handoff. Passionate about simplifying complex workflows into seamless customer experiences.

Core Skills

Product & UX: Product Design, UI/UX Design, User-Centered Design, Human-Centered Design, Design Thinking, User Research, Usability Testing, Competitor Analysis, Personas, User Stories, User Journey Mapping, Task Flows, User Flows, Information Architecture, Interaction Design, Wireframing, Low/High-Fidelity Prototyping, High-Fidelity.

Design System: Design Systems, Design Tokens, Components & Variants, Reusable UI Components, UI Libraries, Typography, Visual Hierarchy, Responsive Design, Accessibility (WCAG), Branding Guidelines, Design QA, Developer Hand-off.

Leadership: UI/UX Team Lead Experience, Mentoring Team, Design Reviews, Design Quality, Stakeholder Management, Client Collaboration, Cross-Functional Collaboration, Agile Methodologies.

Creative: Visual Design, Interaction Design, Video Editing, Motion Graphics, 3D Design/Animation.

Creative: HTML, CSS, Tailwind CSS, Visual Studio Code, Responsive UI Design.

AI: AI-Assisted Design, Adobe Firefly, Midjourney, Runway, Gemini, Hugging Face, Google Flow / Studio, Visly.

Professional Experience

UI/UX Designer | Colan Infotech Private Limited | *August 2022 – Present*

- Designed end-to-end product experiences for SaaS, enterprise, and customer-facing web ui using Figma.
- Conducted user research, usability testing, workflow analysis, and information architecture to improve user experience.
- Created wireframes, interactive prototypes, and high-fidelity designs throughout the product lifecycle.
- Built scalable design systems, reusable components, design tokens, and UI libraries for consistent product experiences.
- Collaborated closely with Product Managers, Engineers, QA teams, and stakeholders to define requirements and deliver customer-focused solutions.
- Simplified complex workflows into intuitive user experiences using human-centered design principles.
- Ensured accessibility, responsive design, and design consistency across multiple products.
- Mentored junior designers and contributed to UX best practices across projects.

Key Projects

Project 1 - Awal Plastics (*Enterprise Platform*)

- Led end-to-end product design for a large *ERP* platform covering **12+ modules**.
- Designed over **3,500** wireframes, prototypes, and high-fidelity interfaces.
- Conducted user research and collaborated with stakeholders to improve workflows.
- Developed and maintained a scalable design system, reusable UI components, typography standards, and interface guidelines.
- Collaborated with business stakeholders, product teams, developers, and quality assurance teams throughout the product development lifecycle.
- Provided detailed design specifications and developer handoff documentation to support accurate implementation.

Project 2 - Excellent Education (*College Platform*)

- Designed a responsive education platform that helps Nigerian students explore and access higher education opportunities.
- Conducted user research to understand student needs, challenges, behaviours, and expectations.
- Developed information architecture, user personas, user journeys, task flows, and end-to-end user flows.
- Performed user research and usability validation to improve navigation, accessibility, and the overall student application experience.
- Created high-fidelity wireframes and interactive prototypes in Figma, translating research insights into intuitive and student-friendly experiences.

Project 3 - Qodora (*Healthcare Claims & Accounts Receivable Platform*)

- Designed an end-to-end healthcare revenue cycle management platform for claims, EOBs, payments, patients, insurers, and accounts receivable tracking.
- Designed detailed claims management interfaces with search, filters, status indicators, export options, and claim-level actions.
- Simplified complex AR workflows through aging analysis, payer-wise outstanding reports.
- Improved usability of healthcare workflows through iterative design, usability testing, and continuous stakeholder feedback.
- Focused on information hierarchy, accessibility, usability, and responsive layouts to support healthcare administrators in completing tasks efficiently.

Education

Bachelor of Computer Science - Thiruvalluvar University | (2019 - 2022)

Awards & Recognition

- **Outstanding Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2024*
- **Best Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2025*
- **Solid Delivery Performance**
 - *Colan Infotech Private Limited, Quarter I - July 2025*
