

Honestraj V

Senior UI/UX Designer | AI

+91 6381636770 | honestdesigns.vercel.app/ | honestdesigns0@gmail.com | Chennai, India

Summary

Customer-focused product designer with **4+ years** of experience designing intuitive web, SaaS, **enterprise**, and digital products. Skilled in user research, usability testing, wireframing, prototyping, interaction design, and building scalable design systems using Figma. Experienced in collaborating with product managers, engineers, QA, and stakeholders to deliver data-informed, user-centered experiences throughout the product lifecycle. Strong understanding of accessibility, responsive design, design thinking, Agile methodologies, and developer handoff. Passionate about simplifying complex workflows into seamless customer experiences.

Core Skills

Product & UX: Product Design, UI/UX Design, User-Centered Design, Human-Centered Design, Design Thinking, User Research, Usability Testing, Competitor Analysis, Personas, User Stories, User Journey Mapping, Task Flows, User Flows, Information Architecture, Interaction Design, Wireframing, Low/High-Fidelity Prototyping, High-Fidelit.

Design System: Design Systems, Design Tokens, Components & Variants, Reusable UI Components, UI Libraries, Typography, Visual Hierarchy, Responsive Design, Accessibility (WCAG), Branding Guidelines, Design QA, Developer Hand-off.

Leadership: UI/UX Team Lead Experience, Mentoring Team, Design Reviews, Design Quality, Stakeholder Management, Client Collaboration, Cross-Functional Collaboration, and Agile Methodologies.

Creative: Visual Design, Interaction Design, Video Editing, Motion Graphics, 3D Design/Animation.

Development & Prototyping : HTML, CSS, Tailwind CSS, Cursor + Claude, Visual Studio Code, Responsive UI Design.

AI: AI-Assisted Design, Adobe Firefly, Midjourney, Runway, Gemini, Hugging Face, Google Flow / Studio, Visly.

3D Tools : Blender 3D, Spline, Dora 3D, Element 3D. Aero 3D, Mixamo.

Professional Experience

UI/UX Designer | Colan Infotech Private Limited | *August 2022 – Present*

- Designed end-to-end product experiences for enterprise, SaaS, ERP, and customer-facing web applications using Figma.
- Conducted user research, usability testing, workflow analysis, and information architecture to understand user needs and improve product experiences.
- Transformed complex business workflows and data-heavy requirements into intuitive interfaces that support efficient day-to-day operations.
- Created wireframes, interactive prototypes, and high-fidelity designs to communicate functionality and validate product concepts with stakeholders.
- Built scalable design systems, reusable components, design tokens, and UI libraries across multiple products.
- Collaborated closely with product managers, engineers, QA teams, business stakeholders, and clients throughout the product development lifecycle.

- Presented design concepts and rationale to stakeholders and incorporated feedback into iterative design solutions.
- Prepared detailed design specifications and developer handoffs to support accurate implementation.
- Ensured accessibility, responsive behavior, usability, and visual consistency across products.
- Mentored junior designers and contributed to design quality and UX best practices.

Key Projects

Project 1 - Awal Plastics (*Enterprise Platform*)

- Led end-to-end product design for a large-scale ERP platform covering 12+ business modules.
- Designed 3,500+ wireframes, prototypes, and high-fidelity interfaces for complex enterprise workflows.
- Conducted user research and collaborated with business stakeholders to understand operational workflows and improve task efficiency.
- Designed data-rich interfaces including search, filtering, status information, reports, and workflow-based interactions.
- Developed and maintained a scalable design system with reusable components, typography standards, and interface guidelines.
- Collaborated with product teams, developers, QA, and business stakeholders throughout the product lifecycle.
- Created detailed design specifications and developer handoff documentation for accurate implementation.

Project 2 - Excellent Education (*College Platform*)

- Designed a responsive platform helping Nigerian students explore and access higher education opportunities.
- Conducted user research to understand user needs, challenges, behaviors, and expectations.
- Developed information architecture, personas, journey maps, task flows, and end-to-end user flows.
- Created interactive prototypes and high-fidelity designs in Figma based on research insights.
- Conducted usability validation to improve navigation, accessibility, and overall user experience.

Project 3 - Qodora (*Healthcare Claims & Accounts Receivable Platform*)

- Designed an end-to-end data-driven platform for claims, EOBs, payments, patients, insurers, and accounts receivable tracking.
- Designed complex claims management interfaces with search, filters, status indicators, exports, and claim-level actions.
- Simplified complex financial and operational workflows through aging analysis and payer-wise outstanding reports.
- Improved usability through iterative design, usability testing, stakeholder feedback, and information hierarchy.

Education

Bachelor of Computer Science - Thiruvalluvar University | (2019 - 2022)

Awards & Recognition

- **Outstanding Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2024*
- **Best Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2025*
- **Solid Delivery Performance**
 - *Colan Infotech Private Limited, Quarter I - July 2025*

Current Location: Chennai, India
