Summary

Experienced UI/UX Designer with **4+ years** of expertise designing enterprise applications along with Proven track record of successfully delivering 8+ major projects , **ERP** platforms, **SaaS** products, and customer-facing digital experiences. Skilled in **Figma**, user-centered design, wireframing, low and high-fidelity prototyping, usability testing, user research, design systems, accessibility, and UX strategy. Experienced in leading design initiatives, mentoring designers, collaborating with cross-functional teams, and delivering scalable digital products across HRMS, Finance, Inventory, Procurement, Production, and Sales domains. Strong understanding of HTML, CSS, JavaScript, and Agile product development.

Core Skills : User Research, Persona Creation, User Journey Mapping, User Flows, Information Architecture, Usability Testing, Accessibility (WCAG), Interaction Design, Stakeholder Management, Cross-Functional Collaboration, Client Communication, UX Strategy, Figma, Wireframing, High-Fidelity UI Design, Interactive Prototyping, Design Systems, Auto Layout, Components & Variants, Design Tokens, Developer Collaboration, HTML, CSS, JavaScript, and front-end development concepts, Responsive Design.

Professional Experience

UI/UX Designer | **Colan Infotech Private Limited** | *August 2022 – Present*

- Designed end-to-end user experiences for ERP, SaaS, web, and ERP using Figma.
- Created wireframes, high-fidelity UI designs, interactive prototypes, and responsive interfaces.
- Conducted user research, journey mapping, workflow analysis, information architecture, and usability testing.
- Built and maintained scalable design systems using Components, Variants, Auto Layout, and Design Tokens.
- Collaborated with product managers, developers, QA teams, business analysts, and stakeholders throughout the product lifecycle.
- Simplified complex business workflows, supported developer handoff, and mentored junior UI/UX designers. Design Tokens.

Key Projects

Project 1 - Awal Plastics (*Enterprise Platform*)

- Led end-to-end UX and UI design for a large-scale Enterprise Resource Planning platform covering more than **12 business modules**.
- Created over 3,500 wireframes, high-fidelity mockups, and interactive prototypes using Figma.
- Ensured visual consistency, usability, responsiveness, and accessibility across the ERP platform.
- Developed and maintained a scalable design system, reusable UI components, typography standards, and interface guidelines.
- Collaborated with business stakeholders, product teams, developers, and quality assurance teams throughout the product development lifecycle.
- Provided detailed design specifications and developer handoff documentation to support accurate implementation.

Project 2 - Excellent Education (*College Platform*)

- Designed a responsive education platform that helps Nigerian students explore and access higher education opportunities.
- Conducted user research to understand student needs, challenges, behaviours, and expectations.
- Developed information architecture, user personas, user journeys, task flows, and end-to-end user flows.
- Simplified complex educational information and application journeys to improve navigation and usability.
- Designed responsive interfaces to provide a consistent user experience across desktop, tablet, and mobile devices. .

Project 3 - Qodora (*Healthcare Claims & Accounts Receivable Platform*)

- Designed an end-to-end healthcare revenue cycle management platform for claims, EOBs, payments, patients, insurers, and accounts receivable tracking.
- Created intuitive dashboards to present key metrics such as auto-posted claims, outstanding AR, denial rates, payment timelines, and pending reviews.
- Designed detailed claims management interfaces with search, filters, status indicators, export

options, and claim-level actions.

- Simplified complex AR workflows through aging analysis, payer-wise outstanding reports.
- Developed a consistent and scalable UI system with reusable components, data tables, cards, icons, navigation patterns, and status badges.
- Focused on information hierarchy, accessibility, usability, and responsive layouts to support healthcare administrators in completing tasks efficiently.

Leadership Experience

- Led UI/UX initiatives for enterprise applications.
- Mentored junior designers and reviewed deliverables to maintain design quality.
- Defined UX standards and scalable design systems.
- Coordinated with cross-functional teams, clients, and stakeholders throughout project delivery.
- Guided developers during design implementation and usability improvements.

Key Design Tools: Figma (Advanced), FigJam, Miro, Adobe XD, Photoshop, Illustrator, After Effects, Photoshop, Framer, AI Design Tools, Blender 3D, Element 3D, Dora 3D, Spline, Adobe Creative Cloud.

Development Tools: VS Code, Google Antigravity, Bolt Ai, Lovable Ai, Replit, Google Studio Ai.

Technologies: HTML, CSS, Tailwind, JavaScript, React.js.

Education

Bachelor of Computer Science - Thiruvalluvar University | (2019 - 2022)

Awards & Recognition

- **Outstanding Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2024*
- **Best Performance and Lasting Contribution**
 - *Colan Infotech Private Limited, Quarter IV - March 2025*
- **Solid Delivery Performance**
 - *Colan Infotech Private Limited, Quarter I - July 2025*

Current Location: Chennai, India
