---

Summary

Customer-focused UI/UX Product Experience Designer around 4+ years of experience designing **enterprise**, healthcare, education, and customer-facing 10+ digital projects. Experienced across user research, interaction design, information architecture, wireframing, prototyping, visual design, usability testing, and design systems. Strong ability to translate complex business and technical requirements into intuitive, efficient, and visually consistent product experiences. Experienced collaborating with product managers, engineers, QA teams, business stakeholders, and clients throughout the product lifecycle. Proficient in Figma, accessibility, responsive design, Agile methodologies, design thinking, and AI-assisted design and prototyping workflows.

Core Skills

Product & UX: Product Design, UX Design, UI Design, User-Centered Design, Human-Centered Design, Design Thinking, User Research, Usability Testing, Interaction Design, Information Architecture, Workflow Analysis, Enterprise UX, Data-Rich Interfaces.
Design Tools: Figma, FigJam, Miro, UX Pin, Adobe Photoshop, Framer, Adobe Illustrator, Adobe After Effects, Blender 3D, Spline.
Interaction & Visual: Interaction States, Visual Hierarchy, UI Craft, High-Fidelity Design, Responsive Design, Design QA, Production Handoff, Design Systems, Components, Variants, Information Visualization.
Accessibility: Accessibility (WCAG), Inclusive Design, Responsive Behavior, Usability, Clear Information Hierarchy, Accessible Interaction Patterns.
AI & Prototyping: AI-Assisted Design, Interactive Prototyping, Lovable, Figma Make, Magic Pattern, UX Pilot, Cursor, Claude, Gemini, Adobe Firefly, Midjourney, Runway, Hugging Face, Google Flow/Studio, Visly, Higgsfield.
Front-End: HTML5, CSS3, JavaScript, Tailwind CSS, Responsive UI Development, Front-End Prototyping, Interactive Visualizations, Visual Studio Code.

Professional Experience

UI/UX Designer | Colan Infotech Private Limited | *2022 – 2026*

- Own end-to-end UX/UI design for enterprise, SaaS, ERP, and customer-facing applications, from discovery to implementation.
- Conduct user research, usability testing, and workflow analysis to identify user needs and improve experiences.
- Translate business requirements into user journeys, wireframes, prototypes, and high-fidelity responsive interfaces.
- Develop scalable design systems, reusable components, and design tokens to ensure consistency across products.

- Create scalable design systems, reusable components, design tokens, UI libraries, typography standards, and interaction patterns across multiple products.
- Collaborate with cross-functional teams, mentor junior designers, lead design reviews, and ensure implementation quality.

Key Projects

Awal Plastics | Enterprise ERP Platform

- Designed complex enterprise workflows, data-rich interfaces, interactive prototypes, and reusable design patterns across 12+ business modules.
- Led UX design activities and coordinated design consistency across modules while collaborating with cross-functional teams.
- Translated operational requirements into structured user flows and intuitive interfaces for business users.

Ramachandra Education | Healthcare Platform

- Designed a healthcare platform focused on improving access to medical services and making healthcare information easier to find and navigate.
- Translated healthcare requirements into user-friendly interfaces, structured information flows, and streamlined navigation.

Connector | Medical Insurance Claims Platform

- Designed a medical insurance claims website focused on claims processing workflows, information management, and efficient user interactions.
- Simplified complex claims-related information through clear interface layouts and workflow optimization.

Aspirelens | School Photography Ecosystem

- Contributed to a connected school photography platform using React.js, Vite, using Google Antigravity.
- Developed reusable UI components and responsive layouts to ensure a consistent user experience.
- Translated product requirements into functional interfaces, supporting front-end implementation and usability.

Motion Graphic & Visual Design Projects

Motion Graphic Animations | *4 Projects*

- Created motion graphics, animated visual assets, and short-form video content using Adobe After Effects to communicate ideas through engaging visual storytelling.
- Developed animated transitions, typography animations, and visual effects to enhance brand communication and digital experiences.
- Applied motion design principles, timing, easing, and visual hierarchy to create polished animations for digital platforms.

Tools: Figma, Adobe After Effects, Adobe Photoshop, Adobe Illustrator, Blender 3D.

Education

Bachelor of Computer Science | *Thiruvalluvar University* | (2019 - 2022)

Diploma In Computer Application - *CSE*

Awards & Recognition

- Outstanding Performance and Lasting Contribution

  Colan Infotech, Quarter IV | *March 2024*
- Best Performance and Lasting Contribution

  Colan Infotech, Quarter IV | *March 2025*
- Solid Delivery Performance

  Colan Infotech, Quarter IV | *March 2025*
