

Honestraj V

UI/UX Designer

+91 6381636770 | honestdesigns.vercel.app/ | honestdesigns0@gmail.com | Chennai, India | Open To Relocate

Summary

Customer-focused Product Experience Designer with 4+ years of experience designing **enterprise**, healthcare, education, and customer-facing digital products. Experienced across user research, interaction design, information architecture, wireframing, prototyping, visual design, usability testing, and design systems. Strong ability to translate complex business and technical requirements into intuitive, efficient, and visually consistent product experiences. Experienced collaborating with product managers, engineers, QA teams, business stakeholders, and clients throughout the product lifecycle. Proficient in Figma, accessibility, responsive design, Agile methodologies, design thinking, and AI-assisted design and prototyping workflows.

Core Skills

Product & UX: Product Design, UX Design, UI Design, User-Centered Design, Human-Centered Design, Design Thinking, User Research, Usability Testing, Interaction Design, Information Architecture.

Design Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Blender 3D, Spline.

Interaction & Visual: Interaction States, Edge Cases, Feedback Patterns, Visual Hierarchy, UI Craft, High-Fidelity Design, Responsive Design, Design QA, Production Handoff, Design Systems, Components, Variants.

Accessibility: Accessibility (WCAG), Inclusive Design, Responsive Behavior, Usability, Clear Information Hierarchy, Accessible Interaction Patterns

AI & Prototyping: AI-Assisted Design, Cursor, Claude, Gemini, Adobe Firefly, Midjourney, Runway, Hugging Face, Google Flow/Studio, Visly, Higgsfield.

Front-End: HTML5, CSS3, Tailwind CSS, Responsive UI Development, Front-End Prototyping, Visual Studio Code.

Professional Experience

UI/UX Designer | Colan Infotech Private Limited | 2022 – Present

- Own end-to-end UX/UI design for enterprise, SaaS, ERP, and customer-facing applications, from discovery to implementation.
- Conduct user research, usability testing, and workflow analysis to identify user needs and improve experiences.
- Translate business requirements into user journeys, wireframes, prototypes, and high-fidelity responsive interfaces.
- Develop scalable design systems, reusable components, and design tokens to ensure consistency across products.
- Create scalable design systems, reusable components, design tokens, UI libraries, typography standards, and interaction patterns across multiple products.
- Collaborate with cross-functional teams, mentor junior designers, lead design reviews, and ensure implementation quality.

Key Projects

Awal Plastics | Enterprise ERP Platform

- Designed complex workflows, data-rich interfaces, interactive prototypes, and scalable design systems across 12+ business modules.
- **Role & Ownership:** Led UX design activities, mentored team members, and drove design consistency across modules while collaborating with cross-functional teams.

Zydco | AI-Powered Enterprise ERP

- Designed intuitive product experiences for complex enterprise workflows, navigation, data management, and operational processes.
- **Role & Ownership:** Owned end-to-end UX design for assigned modules, guided design decisions, and collaborated with stakeholders and developers to deliver scalable solutions.

Ramachandra Education | Healthcare Platform

- Designed a cost-effective hospital platform to improve access to healthcare services and make medical information easier to find and navigate.
- **Role & Ownership:** Translated healthcare requirements into user-friendly interfaces, structured information flows, and streamlined navigation to improve the patient experience.

Connector | Medical Insurance Claims Platform

- Designed a medical insurance claims website focused on claims processing workflows, information management, and intuitive user interactions.
- **Role & Ownership:** Took ownership of interface design and workflow optimization, simplifying complex claims-related information for efficient user task completion.

Aspirelens | School Photography Ecosystem

- Developed a connected school photography platform to help schools capture, manage, and preserve student memories using React.js, Vite, and Google Antigravity IDE.
- **Role & Ownership:** Contributed to front-end implementation, component-based UI development, and responsive layouts, translating product requirements into functional interfaces.

Education

Bachelor of Computer Science | Thiruvalluvar University | (2019 - 2022)

Diploma In Computer Application - CSE

Awards & Recognition

- Outstanding Performance and Lasting Contribution | [Colan Infotech, Quarter IV](#) | March 2024
- Best Performance and Lasting Contribution | [Colan Infotech, Quarter IV](#) | March 2025
- Solid Delivery Performance | [Colan Infotech, Quarter IV](#) | March 2025
